Youtube Gallery is a redesign of Youtube Movie Menu

### **IMPORTANT WHEN YOU USE YOUTUBE MOVIE MENU:**

**Please UNinstall any version of Youtube Movie Menu (ytm\_menu) completely and remove the files, copy this version to your server and install it**

With Youtube Gallery you can create your own youtube gallery, but without any files on your server.

You can:

- Add movies by hand
- Let your user submit movies
- Import from Youtube, with a lot of options
- Put a static or random movie menu on your site
- Add a youtube bb code to your site

This plugin is brought to you by Erich Radstake

### **Version log**

**v3.00** Redesign to complete Gallery

**v2.00** Added BBcode Option

**v1.25** Initial Version
